¹ For 2001, CHP sales are combined with IPP data above.

 $NA = Not \ available. \ \ R = Revised.$

Notes: • IPP are independent power producers and CHP are combined heat and power producers. • The data collection instrument was changed in 2001 to collect data at the corporate level, rather than the plant level. As a result, comparisons with data prior to 2001, and after 2001 should be done with caution. • Totals may not equal sum of components because of independent rounding.
